Work Experience [Germany & India]

zalando

Backend Engineer

31 May 2025 - present

- Part of core team that created an evolutionary feature for improved fulfilment offering. It has resulted in increasing avg. daily shipping numbers by ~**120** for Netherlands and Sweden
- Key developer for a tier-2 application in the Logistics department built over 8 months

CEO

May 2024 - May 2025

- Supported ~**60** tech startups with a team of **6**
- 5** Strategic partnerships; Tech-arm setup
- Managed fund: ~**1.3M €**

Professor of Practice

Aug 2023 - May 2025

- Teaching: Data Structures (undergrad), Business Analytics (undergrad); Adv Algorithms (MTech)
- Mentorship: Advised **14** technical project groups
- Designed revised syllabus of Data Structures as the convenor, along with 2 professors
- Papers published in international conferences: 5+

sixladders

Co-founder

June 2024

- Established architecture and mentored developers in building a suite of educational offerings for students
- Projections for 2026
 - yearly revenue: **0.43M €**
 - MAU: **300**; DAU: **100**

Sr. Systems Engineer

Sep 2008 - May 2012

- Part of team recognised for execution excellence at Org level for implementing i8n for a client

Work Experience [US]

collective[i]

Data Science Engineer

Oct 2016 - Apr 2022

- Created a daily data deduplication pipeline for ~**10M** entities unlocking a speed-gain of **10X**
- Co-authored system for predicting win probability, close time & customer revenue based on a deal pipeline for sales-representatives of B2B clients
- Built strong engineering foundations for the Data science team, mentored developers, added dashboard monitoring and played a critical role in legacy code transitions & technical-debt payoffs

Data Scientist

Oct 2014 - Sep 2016

- Built a crf-based email parser that outperformed mailgun by ~**15%** on F1 for signature detection
- Creator & keeper of dashboards for measuring annotation quality, model performance & KPI's

Papers Published

- Advanced AI-driven solutions for Virtual fitting
- Enhancing accessibility for people with disabilities
- Hybrid Optimisation & Explainability-Driven Framework for Creditworthiness Assessment
- Wavelet-Enhanced Transformer Architecture for Dermatological Image Analysis

Education

MS in Computer Science

Columbia University, NY

[Sep 2013 - May 2014]

BE in Information Technology

Sardar Patel College of Engg,

Mumbai University, Mumbai

[Aug 2004 - May 2008]
